

**CLIMATE &  
CLEAN AIR  
COALITION**  
TO REDUCE SHORT-LIVED  
CLIMATE POLLUTANTS

# PRESS RELEASE

## CCAC Approves Three New Members

**2 September 2013** - At the meeting of the Climate and Clean Air Coalition (CCAC) in Oslo, Norway today, the CCAC has approved three new members:

- Nordic Environment Finance Corporation
- Centre for Science and Environment
- Local Governments for Sustainability

"We congratulate these dynamic new partners and look forward to working with them in helping to reduce the impact of short-lived climate pollutants in the world," said Helena Molin Valdes, Head of the CCAC Secretariat.

The CCAC now comprises 72 partners, including 33 State partners, the European Commission, 8 Intergovernmental organizations and 30 nongovernmental organizations.

**The Climate and Clean Air Coalition** is a voluntary global partnership of governments, intergovernmental organizations, businesses, scientific institutions and civil society committed to catalyzing concrete, substantial action to reduce Short Lived Climate Pollutants (including methane, black carbon and many hydrofluorocarbons). The Coalition has [11 initiatives](#) working to raise awareness, mobilize resources and lead transformative actions in key emitting and cross cutting sectors. SLCP reduction must go hand in hand with deep and persistent cuts to carbon dioxide and other long-lived greenhouse gases if we are to stay under a 2 degrees Celsius warming limit.

**ENDS**
