17:00-17:30	4. Satellite monitoring of methane Short technical session organised by UNEP.		11. Wrap-up session Key messages and next steps

OPTIONAL PRE-WORKING GROUP BREAKOUT SESSIONS (17-21 MAY 2021) > [Click here to register](#)

The week prior to the Working Group meeting there will be thematic breakout sessions for informal dialogue between partners. These meetings will be an important moment to discuss the CCAC’s future engagement and kick-off discussions for the related Engagement Strategies that are being developed in 2021 (or to touch base on planned work, e.g. on the Africa Assessment). Some additional sectors/topics will be convened at a later date, e.g. brick production.

A Secretariat team member will lead each of the discussions, engaging some Partners with expertise to present or help stimulate the discussion. The discussions will be informal so there can be a free exchange of ideas. One Partner will be asked to volunteer to report back to the WG on 26 May. An aim of these sessions would be to help get all Partners focused on the future CCAC engagement.

Optional Pre-WG Breakout Sessions*					
	<i>Mon 17.05.2021</i>	<i>Tue 18.05.2021</i>	<i>Wed 19.05.2021</i>	<i>Thu 20.05.2021</i>	<i>Fri 21.05.2021</i>
